iAgeHealth delivers impact

- ✓ Equity of access which has significantly improved health and quality of life for older adults.
- ✓ Faster access to treatment
- ✓ Early recognition of clinical deterioration and accelerated appropriate hospital entry
- ✓ Reduced unplanned hospitalisations by 65%
- ✓ Reduced fiscal and resource burdens on the broader health-care ecosystem.
- ✓ Approximately 50% more cost-effective than an in-person face-2-face option, offering huge cost savings.
